

GSA Federal Supply Schedule for Environmental Services

Environmental managers in today's government are continually being asked to do more with less. BB&E can offer environmental managers unique, innovative, and cost effective solutions to their most challenging environmental issues utilizing the General Services Administration's (GSA) Federal Supply Schedule (FSS) for Environmental Services. The GSA's FSS is an efficient, fixed price or time/materials contracting method which allows BB&E to perform environmental services for any governmental agency.

BB&E currently maintains four special item numbers (SINs) under our FSS. These four SINs are 899-1 Environmental Planning Services and Documentation, 899-2 Environmental Compliance Services, 899-7 Geographic Information Systems (GIS) Services, and 899-8 Remediation Services. Services offered by BB&E under these four SINs include, but are not limited to, the following:

Planning Services

- Cultural and Natural Resource Surveys
- Environmental Assessments/Wetlands Delineations
- Endangered Species/Archaeological Surveys
- Environmental Program Management

Compliance Services

- Compliance Planning, Permitting, and Auditing
- EMS Planning and Assistance
- Program/Project Management Services
- Pollution Prevention Planning

Remediation Services

- Preliminary Assessments to Remedial Actions
- Surveillance and Oversight Services
- In-Situ Remedial Alternatives
- Long-Term monitoring
- Remedial System Design, Operation, Maintenance, Optimization, and Abandonment

GIS Services

- Mapping and Cartography
- Natural Resource Planning
- Site Selection
- Pollution Analysis
- Migration pattern Analysis
- Emergency Preparedness Planning

To utilize BB&E under the GSA FSS for Environmental Services, please contact the GSA Contracting Officer or BB&E Contract Manager.
