

OASIS

One Acquisition Solution for Integrated Services

Better, Faster, . . . Different. These are the concepts that drive all of us at BB&E. Early on, we recognized that public and private sector clients needed something more than was being provided by many large, multinational environmental consulting firms. They needed responsive, affordable, and technically sound civil and environmental engineering services with a personal touch. BB&E brings this customer service philosophy to the GSA through OASIS.

One Acquisition Solution for Integrated Services - Small Business (OASIS SB) is a multiple award, Indefinite Delivery Indefinite Quantity (IDIQ) contract that provides flexible and innovative solutions for complex professional services. These contracts:

- Span many areas of expertise and mission spaces;
- Span multiple professional service disciplines;
- Allow flexibility for all contract types, including hybrids and cost-reimbursement, at the task order level; and
- Allow ancillary support components, commonly referred to as Other Direct Costs (ODC), at the task order level.
